Other District Boundaries

Although these boundaries are relatively specific, there may be instances in which there are deviations related to boundaries between the Lawton Public School District and adjacent school districts. A detailed map is maintained in the Office of Student Services/ Shoemaker Education Center.

The Office of Student Services also maintains descriptions of attendance areas designated for the various Lawton elementary schools.

**ENROLLMENT, TRANSFER AND PLACEMENT OF STUDENTS
BOUNDARIES cont.****Junior and Senior High School Attendance Exceptions**

1. Transfer of Students in Grades Seven through Nine

A student in grades seven through nine whose parents move from one attendance area to another may transfer all rights and privileges to the new attendance area at the time the parents move, or may remain at the school he/she is attending and be eligible for attendance and athletic purposes until the end of the ninth-grade year. If the student remains at the school, parents must provide transportation.

Beginning with the tenth-grade year, all sophomore students must attend the high school in the area where the student's parents reside.

2. Transfer of Students in Grades Ten through Twelve

A sophomore, junior or senior student whose parents move from one attendance area to another may transfer all rights and privileges to the new attendance area at the time the parents move, or may remain at the school he/she is attending and be eligible for attendance and athletic purposes until graduation. If the student remains at the school, parents must provide transportation.

3. Limited Election Time

The election to transfer or remain at the current school must be exercised by the beginning of the school year following the year in which the parents move from the school attendance area. A student who elects to remain at the former school is required to remain enrolled at the school until graduation (9th or 12th grade). A student who elects to transfer to the school in the new attendance area and who attends the first class at the new school is no longer eligible for attendance or athletic purposes at the former school.

4. Special Education

If the Individual Education Plan (I.E.P.) of a special education student indicates placement in a special education class, the district will determine the school site for enrollment.
